

# THE FUTURE HOME IN THE 5G ERA

## VIDEO TRANSCRIPT

### Next generation strategies for hyper-connected living.

Home. What will home be in the future.  
“At home” is everywhere  
And everywhere you need to be.

A fluid experience for the hyper-connected  
lifestyle. Highly personalized services and  
connected, intelligent things anticipating the  
needs of every generation.

The technology is here  
Converging technologies that can understand,  
anticipate, predict

The Internet of Things  
Artificial Intelligence  
Edge Computing  
Advanced Data Analytics  
eSIM

In the era of 5G our lives will be transformed.

Expectations for success have evolved  
Moving beyond isolated point-to-point device  
solutions

Moving past connectivity fragmentation  
Protecting and securing data and ensuring the  
highest ethical standards.

The market opportunity is immense

The connected home market will grow from  
\$20 billion today to \$37.3 billion in 2023  
according to Ovum.

For CSP Growth  
Communications Service Providers (CSPs) are  
uniquely positioned  
Well-established trust  
Superior customer experience  
The ability to deliver 5G-enabled mission-critical  
infrastructure to lead the ecosystem
