

Workforce productivity

Rethink how work...works

In the era of collaboration, Google Workspace opens up new ways of working, allowing teams to react at a moment's notice, generate breakthrough ideas, and maintain a shared purpose.

The world is rapidly changing

 **Changing technology**

20 billion connected devices in 2020

 **Changing workforce**

85% of employees are disengaged

 **Changing customer**

80% say experience matters as much as product

 **Changing markets**

50% of the S&P 500 will turn over

Shift to the new paradigm

Culture of collaboration

Optimize remote collaboration

Reduce friction to collaborate

Achieve better, faster outcomes

Intelligent productivity

Automate repetitive tasks

Empower people to do their best work

Speed up processes and workflows

Connected knowledge

Find company information faster

Minimize duplicative work

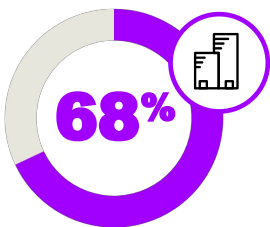

Locate the right subject matter expert

Simple and secure

Simplify administration

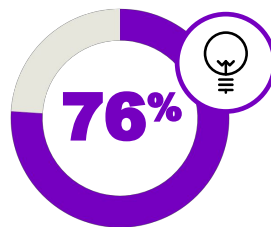

Centralize device and identity management

Automate security decision-making
