Accenture

ACIC Rome brings together Accenture’s deep technical know-how and industry expertise to help companies deploy cloud to transform their journey to cloud. At a time when innovation is racing ahead, Accenture is broadening its collaboration with leading cloud solution vendors to have instant access

to the level of specialist services that can help meet our clients’ specific business objectives. At ACIC Rome, **webring together** not only the major technology vendors but **the best offerings** from emerging providers in step with market evolutions. Our clients benefit from the very latest real and tested solutions.

About Cloudera

At Cloudera, we believe data can make what is impossible today, possible tomorrow.

We deliver an enterprise data cloud for any data, anywhere, from the Edge to AI. We enable people to transform vast amounts of complex data into clear and actionable insights to enhance their businesses and exceed their expectations.

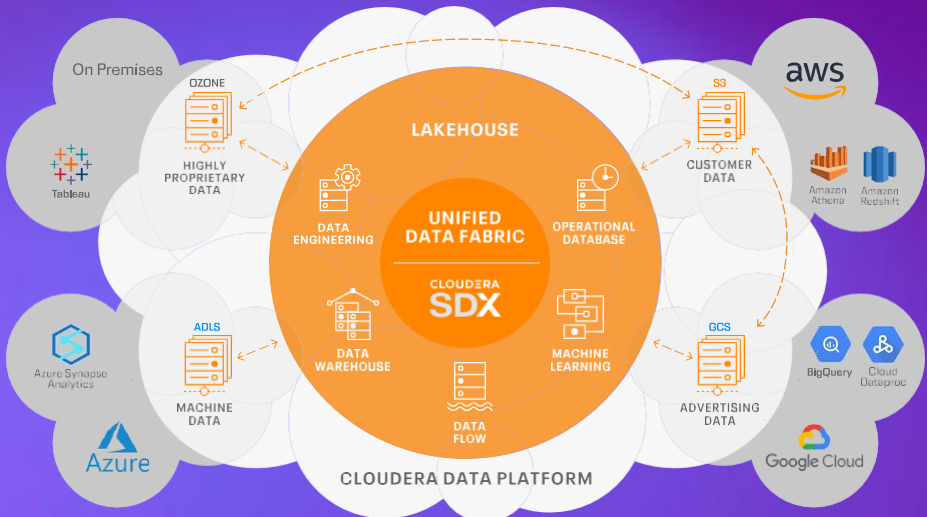

Cloudera is leading hospitals to better cancer cures, securing financial institutions against fraud and cyber-crime, and helping humans arrive on Mars — and beyond. Powered by the relentless innovation of the open source community, Cloudera advances digital transformation for the world's largest enterprises.

Delivering on the hybrid data platform promise of modern data architectures with data anywhere.

Cloudera Data Platform (CDP) is a unified platform with portable, interoperable data analytics for the full data lifecycle and distributed data management running on public clouds, on premises, and at the edge.

CDP's common security, governance, metadata, replication, and automation provided by **Cloudera SDX** enable CDP to operate as an integrated system.

CDP also embodies a hybrid data platform's write-once, read anywhere capabilities, making data application development faster, easier, and more cost-effective.

The Partnership With Cloudera

Cloudera has partnered with ACIC to prototype solutions mainly focusing on one of its products: Intelligent fleet management tools for smarter decisions.

Data Engineering & Applied AI/ML

Intelligent fleet management tools
for smarter decisions

Leveraging An intelligent fleet management solution enabling fleet owners to capture and analyze vehicle data in real time to help make smarter decisions a by translating data into insights and actions.

Context and client challenges

With technologies evolution, control of the data from edge devices is a crucial pain, considering that devices spits out data every second. But challenges customers have to address are several:

- Enable real time decisions;
- Reduce the decision-to-action latency;
- Support the management of a large amount of data;
- Support the management of data from multiple devices.

New approach and solution

- Leveraging on Cloudera Data Platform, integrated with AI/ML Accenture tools, will be possible to manage Edge devices data and enable adaptive and efficient analytic capabilities.
- The solution will leverage Cloudera technologies to: Collect
 - and manage data from the Edge; Manage multiple data sources;
 - Make data available to a centralized AI/ML tool.

Client benefits

- Solution based on a Cloudera framework (only using natively integrated components);
- Enable a Cloud (private and public) ready architecture;
- Reduce the amount of data moved from the Edge on Cloud/ On-prem Platform;
- Enable Edge devices management via Low-Code/ No-Code solutions;
- Enable Real Time analytics on the Edge and No Real Time Analytics on cloud/on-prem on a reduced data set.

About Accenture

Accenture is a leading global professional services company that helps the world's leading businesses, governments and other organizations build their digital core, optimize their operations, accelerate revenue growth and enhance citizen services — creating tangible value at speed and scale. We are a talent- and innovation-led company with approximately 733,000 people serving clients in more than 120 countries. Technology is at the core of change today, and we are one of the world's leaders in helping drive that change, with strong ecosystem relationships. We combine our strength in technology and leadership in cloud, data and AI with unmatched industry experience, functional expertise and global delivery capability. We are uniquely able to deliver tangible outcomes because of our broad range of services, solutions and assets across Strategy & Consulting, Technology, Operations, Industry X and Song. These capabilities, together with our culture of shared success and commitment to creating 360° value, enable us to help our clients reinvent and build trusted, lasting relationships. We measure our success by the 360° value we create for our clients, each other, our shareholders, partners and communities.
