

Workday Rising US 2022

Video Transcript

Question: What are you experiencing at Workday Rising US?

Mary Kate Morley Ryan
Managing Director

It's been awesome. This is my first Workday Rising. It's been inspiring to hear about clients' experience with Accenture and how excited, you know, people are just to be together again. So that's been really fun. It's also been really neat to see just the prioritization and excitement around skills and talent here and sort of what can be done with the Workday technology and what clients are doing in this space in general. And our clients are just doing amazing things with the technology. I'm really excited for what's to come in the talent and skill space with both Workday and Accenture.
